

FIRST STATE BANK

Alert:

Spoof Calls Impersonating Bank Employees

Spoof Calls are targeting customers in the area using these types of conversations:

“We have a check here that you wrote but it doesn’t have a signature. Can you log into ‘auth-fsbbank.com’ so we can review it together?”

“We have some questions about your ACH activity. Please use your bank credentials to log in at ‘auth-fsbbank.com.’”

“We have some charges that are trying to process on your account. If they are not your charges, please log in to the website ‘auth-fsbbank.com.’ I am sending you a one-time passcode, give it to me when you receive it. I will speak to a branch manager for you, no need to reach out to anyone else.”

First State Bank...

- will NEVER have these kinds of conversations with you.
- will NEVER ask you to log into any website other than “BankFSB.com”
- will NEVER ask you share a one-time passcode.
- will NEVER insist that you stay on the phone.

If you ever feel uneasy, please hang up and call us directly, using your keypad, at **903-676-1900** or **visit one of our branches.**
