To Whom It May Concern,

In 2015, Dallas Area Rapid Transit replaced the 36,000 square foot roof at its Senate Street facility. This was the first time DART had contracted with JJ Red Commercial Roofing Company and we had many questions from safety to impact to our daily operations. However, after meeting, Robert Edwards and his crew, these concerns were diminished. Mr. Edwards professionalism, knowledge and customized work plan for our location, quickly became evident that the details and our concerns had been addressed. In their plan, Mr. Edwards had thought of all the regulations applicable to the job and the plan was met with high praise from our Project Management, Environmental and Safety organizations. The crew at the site was friendly, professional, safety conscious, respectful of the daily operation, and communicated daily of their progress and next day plans. They quickly became part of our daily scenery, with no disruption to the daily activities, and each night they would ensure that all debris was picked up, including nails! This project was one of the easiest to implement due to each member of the JJ Red Commercial Roof Company crew providing outstanding customer service, continual communication, and professionalism. Personnel at all levels commented how "They did an excellent job!" It is without hesitation that I recommend the JJ Red Commercial Roofing Company.

Please feel free to contact me if you wish to discuss this recommendation further or have any questions.

Sincerely,

A handwritten signature in blue ink, reading "Ofelia Garcia-Benavides", is written over the printed name and title.
