

DEPARTMENT OF THE AIR FORCE

2D CIVIL ENGINEER SQUADRON (AFGSC)
BARKSDALE AIR FORCE BASE LOUISIANA

LETTER OF REFERENCE

FROM: 2 CES/CEPM – Barksdale Air Force base

SUBJECT: Robert Edwards - Letter of Reference

To Whom It May Concern:

Mr. Robert Edwards successfully managed over 29 roofing contracts for Barksdale Air Force Base in Shreveport, LA over a four year period totaling over \$3.5 million in total revenue. After the 2009 tornado on Base Mr. Edwards effectively managed multiple emergency roof repairs from start to finish.

Mr. Edwards responded in a very timely manner to any roofing problems that occurred on Base. For example, a 23,000 SF building with clay tile roof and copper panels was completed on time and under budget with minimal interruptions to the occupants of the building.

Mr. Edwards was able to provide the roof engineer with detailed reports of the roof issues and concerns as a single point contact for the Base.

In summary, I highly recommend Mr. Robert Edwards. He performed the requested roof repairs in a professional and timely manner. His integrity and respect for his profession are superior.
