

## South East Asia Missions

### Barney Fife

In our time here in Laos we have been visited by Mr. Fife two times and both were COVID related (checking on vaccinations etc), but this past week it was something completely different. After 10:00pm, someone knocked on our door and it was Barney and his partner, he had a clipboard. Mr. Fife asked me 6 questions related to our living in their country and I answered them. He apologized for it being so late and then left. Until now, I had no idea if we were being monitored or not, but the questions made it evident that we are. Penny and I learned long ago that we do not need to fear things like this because our Father will allow us to be here for as long as he wishes, but we would appreciate it if our helping families would keep us and the work in their thoughts.

### Contact

My home family (Bethel) has discontinued the phone number at the family building, so the number you have on my last business card is no longer available. If you have a question and need to get in touch with me you can call our "Leader" Randall Jennings at 409-466-2963. Bear in mind that he works during the day, so if he is unavailable, please feel free to leave a message and he will get back to you when he is free to do so.

In a Great Name,  
Don and Penny Newland
