

WEST TEXAS REHABILITATION CENTER

ROUND-UP

2023

2023

ROUND-UP
for REHAB

64TH ANNUAL

Est. 1960

For traditions old & new

As a local cooperative, we share our profits with the Texans we serve. Since 2006, we've returned \$2.2 billion in combined cash and allocated equities to our members through our cooperative returns program. So, when you're ready to expand or enhance your agricultural operation, try a partnership that really pays. **Together we're better.**

LEADERSHIP letter BY STEVE MARTIN, PRESIDENT & CEO

You have probably heard it said, “The more things change, the more they stay the same.” At West Texas Rehabilitation Center, honoring our tradition and history, while ALWAYS striving to move the organization successfully forward can be challenging. This is never more apparent than when folks leave West Texas Rehab who have a long history with the organization. In the last year alone, we have had folks retire or pass on who have had tenures of 43 years, 46 years, and 50 years of dedicated service to this AMAZING organization.

We remain ever mindful of our need to continue the legacy that has been established through the years. On September 8, 2023, our Chief Financial Officer, Tim Childs, will retire after 26 years of service to West Texas Rehab. Tim and his wife, Julie, have been intimately involved in the lives of many of our patients in their time here. Tim has been instrumental in helping lead our organization through some of our most successful years, including

the last 5 years, where we have seen more patients than at any other time in our history.

Tim’s legacy to West Texas Rehab will be the tremendous impact he has had on our employees, our patients, and their families toward bettering their lives. We wish him all the best in his retirement. In the spirit of continuing to move our organization forward, we are proud to announce the hiring of Matt Butler as the new Chief Financial Officer. Matt received his undergraduate degree from Texas Tech University in Lubbock, Texas and his Master of Science in Finance from the University of Tampa in Tampa, Florida. He most recently served as the Chief Financial Officer for Texoma Health System in Denison, Texas and, prior to that, Matt served as the Chief Financial Officer for Abilene Regional Medical Center. He has a great deal of familiarity with Abilene and our surrounding communities.

Of course, we cannot talk about moving the organization forward without giving you an update on the capital campaign for our new facility. We announced the plan for this WONDERFUL project at telethon and continued through design and development of the interior and exterior plans for the facility this spring. We began fundraising for this 133,000 square foot \$77 million facility on May 1, 2023. As of September 6, we have \$24,508,905 in commitments which is 32% of the project. We are well on our way to reaching our goal, but we NEED your help. If you have already committed to support our campaign, thank you so much.

This project means the world to our patients and their families and to our employees. If you have not committed, or you would like to talk to someone about what this project will mean to our community and the surrounding communities we serve and how you can get involved, please email me directly at smartin@wtcr.com, call me at 325.793.3523, or visit our website at WestTexasRehab.org for more information and to stay updated on our progress.

This is our chance to honor those who came before us and establish our LEGACY for generations of future patients - many of whom are not even born yet.

As Winston Churchill said, “We make a living by what we get, but we make a life by what we give.”

Thank you to ALL of you for what you do to improve the quality of life of the 800 patients who walk through the doors of West Texas Rehab each day.

God bless you and your families, West Texas Rehab, our communities, the GREAT state of Texas and our AMAZING country!

There are so many ways that friends of West Texas Rehab can contribute to our new campus in Abilene. In our last *Round-Up* issue, we talked about using long-term appreciated assets. In this issue, we'll look at giving to our building campaign using a donor-advised fund.

There are a few potential advantages to using a donor-advised fund to support a capital campaign. **First**, you can get an immediate tax deduction for your contribution to the donor-advised fund. **Second**, you can have more control over how your money is used. And **third**, you can spread out your giving over time, which can be helpful if you're not able to make a large donation all at once. Donor-advised funds are flexible and tax-efficient ways to give.

Here are the main steps on how to use a donor-advised fund to support a capital campaign:

Do your research and **choose a donor-advised fund sponsor** who's a good fit for you.

Open a donor-advised fund account. This is usually simple and straightforward.

Make a contribution to your donor-advised fund. You can contribute cash, securities, or other assets to your

donor-advised fund. **Recommend a grant to the capital campaign.** After the grant is reviewed and approved by the donor-advised fund sponsor, the funds will be transferred to the charity.

FYI: While there are many local, regional, and national organizations who could serve as the sponsor for your donor-advised fund, if you're looking for a donor-advised fund sponsor in Abilene, you might consider the Community Foundation of Abilene. And in San Angelo, you might consider the San Angelo Area Foundation.

Here are some additional tips for using a donor-advised fund to support a capital campaign:

Start early. Capital campaigns can take years to complete, so it's important to start early. This will give you time to make a significant contribution and help

the charity reach its fundraising goal. **Be flexible.** The needs of a capital campaign can change over time, so be flexible with your giving. If the charity needs to adjust their plans, you may need to adjust your grant recommendation as well.

How do I get started?

Contact one of our Foundation officers listed below. They would love to visit with you and your advisers about making grant recommendations from your donor-advised fund or other ways you can support West Texas Rehab's Abilene building campaign.

Brenda

Brenda Tidwell

Brenda Tidwell married her sweetheart when she was 17 years old. He was 19. For 64 years they have been together and for roughly 60 out of those 64 years they have been ranching in Coke County. “We ranch charolais and angus cows. It’s work, but it’s a great life,” Brenda explains. And anyone that knows anything about ranching knows it is just that...hard work!

About 2 years ago, Brenda started experiencing pain in her right knee. “It has been bothering me for some time but I kept putting off getting it seen about. I finally had enough and went and saw an orthopedic surgeon. It was time for a knee replacement,” Brenda says.

On January 24th, Brenda had knee replacement surgery. On January 26th, she came to West Texas Rehabilitation Center to start physical therapy with Gina Karr, PT, DPT. “I knew when I first met Brenda that she was going to

be a star. She was motivated and ready to go.

It is important to start therapy as soon as possible after surgery to have the most successful recovery. I asked Brenda about her goals. We put a treatment plan together and got to work,” Gina explains.

“When Gina asked me on my first day what my number one goal was at the conclusion of therapy I told her to be able to get out of the truck and open the gates on the ranch because my husband was ready for me to start helping again,” Brenda laughs. The ranch keeps Brenda and her family busy so being active was a priority.

Gina has been working with Brenda for about 6 weeks. “I saw Gina at my appointments one on one and that was very important to me. It has been a great experience and I am very grateful and pleased with the care,” Brenda says.

On her last day of therapy, Gina put

Brenda through a series of walking tests to assess how she is moving and progressing. She went from sitting to standing and then walking. Her range of motion, timing and balance greatly improved. Brenda was stronger and more confident!

At West Texas Rehab, we recognize that every patient’s story will be different, every patient’s goals will be different, and every patient’s motivation will be different. Our job is to personalize a program that is achievable and fulfilling.

For Brenda, her goal was to get back to the ranch and open that gate!

Just let your husband of 64 years get the gate, Brenda.

You’ve earned it!

RHS Construction Services focuses on commercial construction including new construction and remodels.

RHS specializes in metal stud framing, drywall, batt insulation, acoustical ceilings, tape, bed, paint, concrete and interior demo.

Call us today for your commercial construction needs.

Wylie High School Performing Arts Center

VOLUNTEER *spotlight* BY SUZANNE CLICK, DIRECTOR OF MARKETING, SAN ANGELO

OZONA FACILITY GRAND OPENING IN 1998 FEATURING JO DAVIDSON CUTTING THE RIBBON

Sterling Fryar

Sterling Fryar grew up in San Angelo and graduated from Wall High School. He attended college at Texas A&M University. Ozona was a second home for him where he spent lots of time on the ranch with his family. He is married to Jessica, and they have two children, Sloan and Charlie.

Sterling first got involved with West Texas Rehabilitation Center through the influence of his family, specifically his grandmother, the late Jo Davidson. She was very invested with West Texas Rehab and had Sterling volunteering at a young age, attending fundraising events, and learning the value of giving back.

One of Sterling’s very first memories of his involvement with West Texas Rehab was the Spring Chicken Affair. He and a friend had volunteered for the event, but they showed up late. Sterling recalls, “My grandmother, who never got mad, was so upset with me. I realized then that her disappointment was so much more than me showing up late. This organization meant so much to her and I was being disrespectful to her and to those that were giving their time to something bigger. It was an eye opener that I needed to be better.”

Sterling now wears many hats as a volunteer and donor for West Texas Rehab. He is a board member, a superstar dancer and fundraiser for Dancing with the San Angelo Stars, participates in the Frank Caraway Memorial Clay Shoot

as a committee member and shooter, volunteers his time at our Rehab Summer Camp, and supports the Goat Ropers Gala in Ozona...just to name a few. “I want to be an example for my children because we are only as good as what we leave behind.” Sterling explains.

Sterling was also involved in the recent Ozona remodel project. He was instrumental in the fundraising efforts with connections he had in the community. “At the open house following the remodel, I discovered that my grandmother spearheaded the original construction and opening of the Ozona Campus in 1998. It is such an honor to be a part of a project she started. I think she would be proud.” Sterling expresses.

STERLING CUTTING THE RIBBON AT THE OZONA FACILITY RE-GRAND OPENING THIS YEAR AFTER REMODELING WAS COMPLETED ON THE BUILDING

Sterling is passionate about helping others and is an inspiration to anyone thinking about getting involved as a volunteer and donor. “I have

STERLING PERFORMING WITH HIS PRO, SKYLAR LAYMAN AT THE 2022 DANCING WITH THE SAN ANGELO STARS

experienced the reach of West Texas Rehab personally. We called in Hospice of San Angelo for my grandmother. Yes, the same grandmother who introduced me to West Texas Rehab.

Hospice allowed us to focus on the time we had left with her while they focused on her comfort and care. I also

have many friends who have used the pediatric services for their children and have life changing stories to tell. So, it has truly come full circle for me. What an honor to get to volunteer and give to a place that I have personally been touched by!” Sterling exclaims. *Thank you, Sterling, for continuing the legacy your grandmother started!*

Though you still have many shopping days between now and December 24th,

Now is the time to say "YES"

to West Texas Rehabilitation Center's offer to handle all the logistics of sending your Season's Greetings to family, friends, and business customers!

We'll inscribe the following message on your card(s) of choice:

**A GIFT HAS BEEN MADE IN YOUR
NAME TO WEST TEXAS
REHABILITATION CENTER BY**
(Your name inscribed here)

In addition to personalizing your cards, we'll neatly hand address them from the mailing list YOU provide, then stamp and mail them for you. If you want to include a personal note, we will deliver them to you ready for mailing.

West Texas Rehab is delighted to offer you this "no hassle" way of sending a meaningful season greeting to your friends, family, and business associates. The amount of your donation over the actual cost of cards and postage is tax-deductible. We greatly appreciate your support of West Texas Rehab! Your donation will help us continue to provide out-patient rehabilitative care to more than 800 patients each day. Thank YOU!

The pricing is as follows:

5 cards - \$40	100 cards - \$475
10 cards - \$75	150 cards - \$650
25 cards - \$150	200 cards - \$750
50 cards - \$275	250 cards - \$850
75 cards - \$400	350 cards - \$1000

To place your order, simply complete and return the form on the back of this page and we'll do the rest! Our goal is to mail your cards shortly after Thanksgiving, so please get your order to us as soon as possible so we can accomplish imprinting and addressing in a timely manner.

We Honor Veterans

Every year, the West Texas Rehab Center’s Hospice of the Big Country holds a dinner for Big Country Veterans - usually focused on those that served in specific conflicts. This year, they opened that dinner to include all veterans who have served in any capacity.

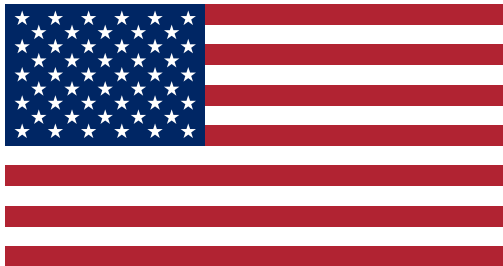

“While our veterans are still here, let’s

remember them, let’s thank them, let’s show them love, and just give them an evening of recognition,” said Hospice Executive Director Angie Lane.

“You are appreciated, you are loved, and your service mattered. From the staff and volunteers of the Hospice of the Big Country, we’d like to say thank you,

God bless you, and God bless the United States of America,” expressed Lane.

Lane and her staff would like to take the time now to thank these brave men and women. Especially considering that we lose so many of them with each passing year, making now the best time to show our gratitude no matter how big or small their sacrifice.

Each year, West Texas Rehab’s Hospice of The Big Country invites loved ones to honor and remember loved ones through their Butterfly in the Park Memorial Service.

The service features a butterfly release followed by a picnic lunch.

The ‘We Honor Veterans’ and ‘Butterfly Release’ events utilize volunteers that are vital to the credentialing of Hospice. Their service is very much appreciated on a daily basis, whether that’s sitting with patients or helping with the pet therapy program.

If you’re interested in becoming a volunteer, please contact Karen Hunnicutt at 325-793-5450 for more information.

The next training will take place in October, 2023.

Tell Your Texas State Senator and State Representative to Support Cranial Remodeling Orthoses in 2025

For thousands of families across Texas, cranial remolding orthoses (CROs) can provide life-changing care when their infant is diagnosed with deformational plagiocephaly, a condition in which the skull flattens due to factors including prolonged labor, forces in utero, neck stiffness, or torticollis. These custom devices work to reshape the head to approximate a “normal” appearance in moderate to severe cases, and in cases where conservative treatments (head repositioning, therapy, etc.) are ineffective.

Coverage is not currently required in Texas, forcing parents and families to choose between incurring prohibitive out-of-pocket costs or watching their infant develop abnormally. HB 134 would have addressed the lack of access by requiring Medicaid and CHIP to fully cover CROs, ensuring that infants in need of this treatment can live the life they deserve.

Our Texas legislature had the opportunity to fund CROs during this legislative session. The bill successfully passed the House floor but failed to make it out of the Senate Health and Human Services committee to be voted upon.

Despite the lack of funding, West Texas Rehab has provided this service to over 131 infants in 2022 and are well on the way to surpassing that number in 2023. Please help by contacting your representatives to ensure this issue is brought up again during the 2025 Texas legislative session.

West Texas Rehabilitation Center is launching their “*Building for Patients: Today. Tomorrow. And Always. Capital Campaign.*” The mission of this campaign will be to raise funds needed to build a new state of the art, all encompassing, clinical facility in Abilene, Texas. The new, 133,000 square foot facility will promote the highest quality patient care, improve efficiencies and safety for their ever-growing patient population, ensure cost savings, improve access and visibility to care with a prime, more accessible location, and enhance the overall morale of all who enter our doors.

The project includes moving our Abilene campus to land located at the corner of Covenant and Memorial Drive, north of Sam’s Club. Our current buildings consist of 80K SF. The new building will have expansion capability of 40K SF as we continue to grow. The WTRC campus will be located on 16 acres with a total capital investment of \$77M. The building will house our corporate offices, patient and financial accounting departments, along with all of our therapy services to include pediatric and adult physical therapy, occupational therapy, speech therapy, hospice, audiology, orthotics, prosthetics, and employer services.
