RETIRED PEDIATRICIAN
CONTINUES LEGACY AS
WTRC ADVOCATE &
BOARD MEMBER

WTRC & HOSA MERGE: PG. 3

You're not alone.

The "Life after Loss" support group meets for five consecutive sessions of 1 1/2 hours each. Sessions include validation of common feelings in loss, identification of hindrances to effective grieving, an understanding of grieving processes, dealing with special events and holidays, and suggestions for taking care of oneself after a loss.

for more information
please call
325.793.5450
WestTexasRehab.org

In 2018, sessions are scheduled in May, July, September and November.

THE BEST JUST GOT BETTER....
Welcome to the Family
Hospice of San Angelo!

LEADERSHIP LETTER Steve Martin, President & CEO

We have had so many positive comments about our 'WTRC Round-Up' magazine, and we always appreciate your interest and support of all things involving West Texas Rehabilitation Center.

Our 48th annual Telethon was a resounding success as Carly Pearce, Little Texas, Red Steagall, Charlie Chase, the energetic Rion Paige, and others entertained an enthusiastic crowd on January 20th. We anticipate this will be the 2nd largest Telethon in our history, and we appreciate our Telethon sponsors: Capital Farm Credit and Suddenlink a brand of altice, Decker Capital Partners, NTS, Accurate Air Solutions, and KTAB/KRBC for their partnership, and all of you for your support of our auction and your many pledges made during the Telethon.

We are excited to announce the merger of Hospice of San Angelo into the West Texas Rehabilitation Center, which was effective March 1, 2018. Since our merger with Hospice of the Big Country in 2000, we have wanted to extend our hospice mission into San Angelo and the Concho Valley. Hospice of San Angelo was established in 1985 as the 13th hospice in Texas and has an outstanding reputation as the only non-profit Hospice in San Angelo. Inside you will find a great article detailing this partnership, and I hope you will take time to read about our expanded services in San Angelo and the Concho Valley.

In this issue, you will notice donations made during 2017 in memorium or as honorariums to folks who mean a great deal to the donors and to the West Texas Rehabilitation Center. It is also during this time of year that we honor those donors, volunteers, board members, and employees who we have lost in the previous year, but who gave so much of their time, energy, and resources to help the patients of the West Texas Rehabilitation Center. We will add 26 names to our Legacy of Love Wall during ceremonies on May 4th in Abilene and May 8th in San Angelo to honor these incredible individuals.

We depend so much on our fundraising events throughout the year and I would encourage you to attend and support these events where you have an interest. Most of the dates are listed in the magazine. If you cannot attend an event, or feel you would like to make an impact on patients now and many years into the future, I would encourage you to read the article on Charitable Gift Annuities. Charitable Gift Annuities are just one of the many ways you can support West Texas Rehabilitation Center, Hospice of the Big Country, and Hospice of San Angelo by making a gift to the West Texas Rehabilitation Center Foundation.

We could not do what we do each day without the support of our volunteers and donors. You make it possible for us to provide the very best care available anywhere -- care provided by our outstanding clinicians and nurses, using the best equipment and facilities, and all regardless of financial circumstances.

Thank you so much for your involvement in and support of the West Texas Rehabilitation Center.

All the best,

RETIREMENT & GIVING

Have you ever thought about whether you'll have enough income during your retirement years?

Have you ever wished you could do more for

the more than 500 patients that depend on the Rehab every single day?

Do you sometimes feel that you can't take care of both you and your family while also supporting the Rehab?

These are three very good and very important questions. Fortunately, there is an easy answer. It's called a charitable gift annuity. Here's an example of how a gift annuity works:

Say you give \$25,000 cash to the West Texas Rehab to fund a gift annuity. If you're 70 years old at the time you fund your gift annuity, and it's a single-life annuity (you can also have a two-life gift annuity), you would receive \$1,275 each and every year for the rest of your life. You can also use appreciated securities, real estate, and other assets to fund your gift annuity.

How does a gift annuity help support the Rehab?

A gift annuity helps the West Texas Rehab like this: When the one or two annuitants of a gift annuity dies, the remainder becomes a gift to the Rehab.

In general, the older an annuitant or annuitants are when they enter into a gift annuity agreement with the Rehab, the higher the rate of return will be. In addition, you will also receive a *significant income*

tax deduction for a part of the annuity amount.

We're here to help you.

Gift annuities can be a good fit for many people, but there are some situations where another giving option might be better for you or your family.

For more information about charitable gift annuities or other ways to support the Rehab call (888) 861-6385, and ask to visit with one of our development professionals — today!

HOSPICE SPOTLIGHT

West Texas Rehabilitation Center and Hospice of San Angelo Merge

Representatives from West Texas Rehabilitation Center and Hospice of San Angelo announced recently that the two non-profit health care providers would be merging on March 1, 2018, resulting in West Texas Rehab's Hospice of San Angelo.

"The board and staff of HOSA could not be more pleased about joining forces with such a phenomenal community focused organization. The missions of each non-profit are so similar, this merger just made sense. We look forward to our future with WTRC as we become united in serving the Concho Valley. Together we can have an even greater impact on the communities we serve" said Corey Peddy, Hospice of San Angelo Board Chairman.

WTRC is a leading force in rehabilitation services across West Texas. HOSA is a leader in hospice care to residents in a fifteen-county area. The merger has come about so that the two successful non-profits can combine resources and collaborate, enhancing their impact and benefiting the communities they serve.

WTRC was established as a private, non-profit corporation in 1953 in one location with one therapist treating seventeen patients. Today WTRC serves thousands of children and adults in three different locations across West Texas, offering outpatient physical therapy, occupational therapy, speech therapy, audiology, orthotics and prosthetics, employer services, as well as hospice care in the Abilene area following its merger with Hospice of the Big Country in 2000.

Hospice of San Angelo was established by the Junior League in 1985 as the 13th hospice in Texas.

HOSA moved into its home on the eleventh floor of the Cactus Hotel in 1996, acquired the Landy House in 1996 as the center of its bereavement services, and acquired property on South Chadbourne in 2017 to house durable medical equipment (DME). HOSA provides services of clinical teams, licensed social workers, chaplains, DME technicians, trained volunteers, and bereavement counselors.

"March 1st will go down as one of the greatest days in the history of these two outstanding organizations. This partnership will enable us to provide a full continuum of rehabilitation and hospice services to all who need them here in the Concho Valley and continue to build on our legacy of service to the community regardless of financial circumstances."

West Texas Rehab's Hospice of San Angelo will focus on continuing the mission of both organizations, which is to provide the highest quality of care to all those who need it regardless of financial circumstances.

For more information about West Texas Rehabilitation Center's Hospice of San Angelo please contact their office at 325-658-6524.

PATIENT SPOTLIGHT Jim Hall

President Theodore Roosevelt is credited with saying “Believe you can, and you’re halfway there.” No statement is more true to this than the story and attitude of Mr. James Hall. James “Jim” Hall is a retired Navy veteran and retired teacher who has had to fight his way back from misfortune. Jim suffered a stroke last March that brought on both Parkinson’s disease and dementia. After failing his driving test in July of 2017, Mr. Hall was referred to West Texas Rehabilitation Center

At 74 years old, not being able to drive or accomplish everyday tasks like before was a difficult adjustment. Jim’s wife, Mary Beth, noticed very quickly that something was not right. “One day I noticed that he wasn’t doing some of his routine activities; he was shaking, and his memory seemed to disappear overnight. We took him in and discovered he had had a stroke, and that triggered some dementia and Parkinson’s,” she said. Jim was then referred to West Texas Rehab for his driving test, and when that did not go as planned, he was referred for therapy. Though unsure if therapy could help in the beginning, Jim started believing in himself and the power of West Texas Rehab and started working in his therapy sessions. Working with multiple therapists in multiple departments, Jim worked on his motor control, speech, memory, and his overall movement. Gwen Calvert, Jim’s occupational therapist, said “Even with his

rough start, Jim came back and followed through with his exercises. He listened and worked hard to improve in all areas.”

After five months of occupational and speech therapy, Jim was able to retake his driving test and passed with flying colors! Jim says he enjoyed working with everyone, even when it was difficult. “Everyone I have worked with has been very nice, and everyone you meet in the halls is friendly, too. I have noticed a big difference in the way that I move and speak, and my memory is better, too,” he said. Mary Beth has noticed a big difference at home, as well. “He had a good sense of direction before, then it got really bad, and, now, it’s pretty good again. He can remember things better. He can work his legs better, and he can now take the car again to do little things. I’ve seen a big difference, and I’m so grateful,” she said.

Jim Hall

Although Jim has been released from therapy, he still works on his exercises and is even considering joining West Texas Rehab’s Parkinson’s Power Hour program to continue improving his mobility. “Jim has put in the time to recover and improve his speech and memory,” said speech therapist Khristina Douglas. “Gwen and I have worked together to make sure he was getting the best treatment,” Khristina also said. “I can’t tell you how important it is for all of the therapists to work together,” said Gwen Calvert. “My OT treatments coincide with Khristina’s speech therapies, and we share notes to make sure we adjust to his needs

“Believe you can and you’re halfway there.”

together,” Gwen also said. West Texas Rehab clinicians work as a team. Both are proud of the progress Jim has made, and so is his wife. “We are just so grateful for The Rehab. We’ve had treatment in other places, but nobody took care of Jim like the people here at The Rehab,” said Mary Beth. It’s always a good moment to see an improved patient and their happy family. Jim’s story is just another one of the great things that happen at West Texas Rehab every day.

REHAB
WEST TEXAS REHABILITATION CENTER

DRIVING SCREENINGS

Because we know driving is an important function in our daily lives, West Texas Rehabilitation Center offers.....

Testing for persons who have experienced illnesses, accidents and are concerned if they will be able to drive again.

Types of Testing Include:

- Reaction Timing
- Safety/Judgment
- Visual Scanning/Awareness
- Problem Solving
- Functional Mobility
- Traffic Rules & Regulations

Service provided by Licensed Occupational Therapists upon physician referral.

great things happen here every day!

DONOR SPOTLIGHT

Ben & Lenora Pool

In Sonora, when you hear the last name Pool, everyone immediately thinks of Ben and Lenora. The couple is involved in many things, including years of service to the Sutton County Emergency Service and Sutton County Emergency Management, Lenora serving on the board of the Sutton County Hospital District for the last 17 years, and most recently, active participants in helping start Sonora's Food Pantry.

It is easy to say Ben and Lenora have a lot of passion for those in their local community, but their love isn't just land-locked in Sutton County. They also have been longtime supporters of West Texas Rehabilitation Center, and the story started over forty years ago. "I was introduced to WTRC at a young age when my brother was in an accident at age 21" Lenora recalls. "The accident happened in January of 1973 which left him paralyzed from the waist down. After four months of services from WTRC, he could walk!" The Pools believe in what the West Texas Rehab does due to this experience. "The strength of our support not only comes from knowing what Rehab did for my brother-in-law but also for what they did for my mother-in-law when she was alive" comments Ben.

With their involvement running over 45 years, the Pools continue to support the West Texas Rehab

through memorial donations and being sponsors of the annual Sonora Sensation which is held each year in August. "Lenora and I are the type of folks to acknowledge when God has been good to you, you return that favor to others, and we try to do that as much as we can" shares Ben. When asked about staying involved in their community,

Darrell McCall plays at Sonora Sensation-a Round-Up for Rehab event in Sonora the Pool's were instrumental in starting.

Lenora shares with a laugh that she is quite the investigator, researching all the organizations she and Ben support ensuring the organization is deserving of their support. "This is why Rehab is one of our most favorite charities because I've done my homework and know they are deserving of our support."

Ben and Lenora split their time between family and their business American Sales and Service. Even though their story started four decades ago, they continue to support all the great things happening at West Texas Rehab and Hospice of San Angelo. Knowing their support stays local, even in Sutton County, is the most gratifying feeling when it comes to supporting something so dear to them like West Texas Rehab. You can help too by getting involved with West Texas Rehab through events like Sonora Sensation, and Ben & Lenora personally invite you to the event on August 18th, 2018 at the Sutton County Civic Center.

DEPARTMENT SPOTLIGHT

Robb Walker

As the son of a fourth-generation farmer, it is hard to imagine that his path would lead him to become the Director of Orthotics and Prosthetics (O&P) at West Texas Rehabilitation Center in Abilene, Texas. Yet, that's exactly where Robb Walker's unique journey led him.

Born outside of Big Spring, Texas, Robb was raised on a cotton farm and cattle ranch. After graduating from Coahoma High School in 1997, Robb thought he would continue working the family business. However, his family had other plans. Because of too much government interference in traditional farming, Robb's family decided they had had enough. So, Robb was off to chart a new course. That led him to Odessa College in Odessa, Texas, where in 2000, he earned his Associates Degree as a Physical Therapist Assistant (PTA). Robb took off for San Angelo where he joined the West Texas Rehab staff as a physical therapy assistant working with orthotic and prosthetic patients. Working with O&P patients was very challenging, yet fulfilling and interesting.

Growing up living and working on a farm gave Robb ample time to tinker around fixing, building and making various machines and equipment. His path as a PTA seemingly did not provide an outlet for his inner farm boy. Robb thrived at building and making various instruments in order to help

his patients progress in their therapy. This combination of patient care and mechanical inclination brought out a new interest for Robb. He decided to attend Angelo State University to obtain all the prerequisites necessary for him to attend UT Southwestern to obtain a degree in Orthotics and Prosthetics.

Upon graduating UT Southwestern, Robb was hired once again to work at West Texas Rehab, ultimately becoming the Director of Orthotics and Prosthetics. In reliving where his journey has taken him, Robb said, "The most satisfying thing for me is creating the positive outcomes and the large variety of patients, from 3 months old to the 92 year old stroke patient. It's all worth it when we have good outcomes." Robb also acknowledges that working for other entities proved to him how unique and important West Texas Rehab is to patients and communities throughout the Big Country and Concho Valley.

Robb has come a long way on a "not-so-traditional" path for the son of a generational farming family. He continues to provide innovative care and solutions for his many different patients. He thrives on these clinical challenges, which often include keeping up with regulatory changes and regulatory mandates. Though these regulations can sometimes bring challenges, Robb is more than willing to address them to care for the patients at West Texas Rehab. We are proud to have Robb providing the highest quality care possible and his leadership of other outstanding clinicians here at West Texas Rehab.

Robb Walker, Director of Orthotics & Prosthetics

PHYSICIAN SPOTLIGHT Dr. Robert Patyrak

If we described someone as a Texan by choice, avid fly fisherman, United States Army veteran, humble husband, father and grandfather, beloved pediatrician in San Angelo for 36 years and now dedicated board member at West Texas Rehabilitation Center, who would we be referring to? If you're not sure, we're describing none other than the one and only, Dr. Robert Patyrak, or simply Dr. P.

Dr. Patyrak graduated from Tulane University in 1974 and completed his internship and residency in pediatrics at William Beaumont Army Medical Center in El Paso, Texas in 1977. He was stationed as a pediatrician in the Army in Stuttgart, Germany from 1977-1979 and Berlin, Germany from 1979-1980. After leaving the Army, he and his wife, Debbie, moved to San Angelo in July of 1980 where he practiced pediatrics until retirement in October 2016. Dr. Patyrak recalls his first memory of flying into San Angelo for his interview. "After I flew from Berlin to San Angelo I soon realized that I had confused San Angelo with San Marcos! Whoops! I now tell everyone that I chose the perfect vocation-pediatrics, the perfect city- San Angelo, and the perfect practice!"

When asked why he decided to go into medicine, and particularly pediatrics, Dr. Patyrak states "As a young child I had to see an eye specialist and even had eye surgery at three years of age. From that time on, I always wanted to be a doctor. Initially I considered family practice, but during an externship at Fitzsimmons Army Medical Center in Denver, I did a three-week pediatric rotation and found my calling! There is nothing more thrilling than the sounds of a newborn's first cry and nothing more rewarding than helping a child in need."

Dr. Patyrak and Debbie, his wife of 42 years, have

three children and seven grandchildren. Their favorite place to vacation is Disney World where he says they can both "act like little kids again!" He and his two best buddies have spent the last 30 plus years fly fishing for trout and salmon throughout the United States and Canada. He is also very proud to be an active board member of the San Angelo Health Foundation.

Dr. Patyrak's involvement with West Texas Rehab spans a long 36-year period from a practicing pediatrician and now a dedicated board member. "I have always loved the mission of the West Texas Rehab Center and how they are here to help anyone,

regardless of their financial capabilities. They have helped many of my patients over my practicing years, and I desire to help continue this legacy of giving to our community," Dr. Patyrak comments.

Dr. "P" at camp

Dr. Patyrak lights up when saying that his favorite part so far about being a board member is volunteering at the San Angelo Rehab Day Camp held each summer. He remembers that many of his special needs patients attended the camp through the years. Being able to experience the camp firsthand reminds him again of why West Texas Rehab is so vital to the community.

We at West Texas Rehab are so thankful to Dr. Patyrak for his support and involvement in our organization and look forward to the partnership for many years to come! Dr. P you are truly a blessing to our community and mission!

(L-R) Debbie & Dr. Robert Patyrak

CONTINUING EDUCATION for CLINICIANS at WTRC

Occupational Therapist, Katie Koehn, and Physical Therapist, Lindsey McMillan, both part of our amazing Pediatric Team in San Angelo, are proud to have wrapped up a continuing education course on Neuro Developmental Treatment this February in Killeen, Texas.

Neuro Developmental Treatment, or NDT, is really more than just a treatment strategy. It incorporates performing a thorough evaluation in order to find out why a patient is having difficulty performing a specific skill. Often times, we already know there is a neurological impairment, which is something we cannot change. NDT helps us identify and have a better understanding of why the child is having difficulty with a particular skill. This in turn helps the therapist to guide and sequence their treatment in order to attain the optimal outcome. NDT also incorporates specific hand placement and treatment strategies to use during the treatment sessions which guide the patient through desired movements.

The certificate course is very intense and includes more than 250 hours of instruction. Most of this time was spent putting these ideas into practice through working with actual patients, working with their classmates, and performing group problem solving activities. "This course has changed the way I think when developing goals and treatment strategies for my patients. I have already witnessed positive changes in my pediatric patients and am seeing them reach their goals more quickly," McMillan reflects.

One of the many pledges that West Texas Rehabilitation Center strives to make to our patients and the community is not only to provide outstanding care to everyone regardless of financial circumstance, but also to provide the best care!

One of the ways we can guarantee that this is accomplished is by striving to learn and grow in our skills, our techniques, and our knowledge across the vast fields we cover.

Claire is receiving therapy services using NDT in treatment

West Texas Rehab commits a significant portion of its operational budget each year to continuing education for clinical staff. "The commitment that our administration puts towards our continuing education attests to their willingness to give us every tool possible to provide quality care with the best possible outcomes we can facilitate," McMillan adds. Lindsey and Katie are just two examples of how continuing education and certification can make a huge impact on both current and future patient care.

VOLUNTEER SPOTLIGHT Ted and Martha Shelton

The West Texas Rehabilitation Center (WTRC) has been blessed to have many wonderful volunteers and donors over the course of our 63 year history.

We have long-time friends and partners who, for whatever their personal reasoning, get involved and share their unique talents, all to help WTRC to fulfill our mission of providing exceptional care to every single patient that enters our doors. Ted and Martha Shelton from Brownwood, Texas have certainly shared their hearts and talents with us for a great many years.

(L-R) Martha & Ted Shelton

Ted, a talented artist, has been involved with WTRC for more years than he can remember. He first participated at the Coleman Art Show, which is an event that donated proceeds to the WTRC Telethons to help cover the cost of patient care.

More than 18 years ago, Ted and Martha met a new WTRC employee, Marjorie Cloud, at the Coleman Art Show. The three of them struck up a strong friendship, as Marjorie often did with people she would meet throughout the Big Country.

Over the years, Ted and Martha worked to bring in the Brownwood Art Club with the hopes of raising more money to help WTRC meet our mission. Ted and Martha have been involved in a lot more than

just donating art. They have been participants in WTRC’s longest running fundraiser, the Round Up for Rehab cattle sales and various other Round Up activities. When the cattle auctions began to die down in the Brownwood area, Ted and Martha were instrumental in helping create the ‘Remembering When Dinner Show.’ They continue to serve on the committee by organizing the show and helping promote and sell tables.

Ted isn’t just a WTRC volunteer, he has also been a patient in our Hearing and Balance Department as well as in Orthotics and Prosthetics.

Ted and Martha said that, “it brings us great pleasure to help WTRC any and every way we possibly can.” The Sheltons do what they can out of the goodness of their hearts and we are thankful for their involvement.

“It brings us great pleasure to help WTRC any and every way we possibly can.”

Why the Rehab?

Throughout our history, we have never turned anyone away due to an inability to pay.

The number of uninsured continues to grow. Who else asks every patient "Are you going to need help in meeting the financial obligations of your treatment?"

We treat patients as people rather than a source of income. "I get treated special at the Rehab."

The history of the Rehab has been to respond to unmet needs.

The center has grown and evolved to meet ever-changing needs; we're forward focused.

We utilize a comprehensive, holistic approach to our services so that care has the greatest positive impact on the family.

We treat more than physical needs as we help people adapt and change their lives for the better. We touch people's souls as well as heal bodies; we make wonderful things happen.

We ease the burdens on patients and their loved ones by helping them reach their potential.

We're the safety net that catches people who fall through the cracks.

If not us, then where do the most needy turn for help?

We are a part of the fabric of West Texas life, as much as beautiful sunsets, hard work, self-sufficiency, stubborn independence, droughts, and neighbor-helping-neighbor.

Sometime you, or someone you know, has needed or will need the Rehab

LEGACY of LOVE WALL

West Texas Rehabilitation Center created its Legacy of Love Wall to perpetuate the memory of individuals whose love and generosity during their lifetime had an especially meaningful impact on the organization. On March 27, 1994 at the first Legacy of Love ceremony, 134 names were placed on the memorial wall. Since that time, a ceremony is held in the spring of each year to add names of special Rehab friends who have completed their earth journey in the past 12 months.

During their lifetime, each honoree found his or her own unique niche to demonstrate an extra-ordinary commitment to the Rehab mission. Some were volunteers in the Center or at fund-raising events; many repeatedly made significant financial contributions to operations and/or capital improvements projects; many served on the organization’s board of directors; still others were long-time, dedicated employees. Some of these wonderful people served the organization in more than one of those roles!

Regardless of the difference in gifts they individually brought to the Rehab Center, all of the people whose names appear on the Legacy of Love Wall have three things in common. During their lifetimes, they contributed to the development of a highly respected, visionary organization; they provided love, compassion, and support to patients and staff; and they set a standard for excellence in patient care and personal integrity that inspires everyone associated with West Texas Rehabilitation Center to seek ways to add their own amazing Legacy of Love.

Legacy of Love

WEST TEXAS REHABILITATION CENTER FOUNDATION

A Hospice Program for Grieving Children

Helping others along the path of serious chronic illness.

Building Bridges is a grief support group for children, grades K-12, who have experienced the death of a loved one.

Two six-week sessions are offered during each school year. Trained staff and volunteers offer support to children and teens through the use of activities including art, music and other creative means to encourage the participants to express their feeling of grief and to help them share cherished memories of their loved ones.

hospiceofsanangelo.org

Making life-changing choices is often a challenge for people with advanced or chronic illnesses.

Pathways is a program offered to patients with advanced, chronic, or a life-limiting illness. This program is community based and offers guidance, support and education to the participants and family members.

There is no cost to the patient for this service. All medical care continues to be directed by the patient's physician.

For those who gave
throughout 2017, thank
you so much for your
kindness, generosity, and
support of West Texas
Rehab and our patients.
Thank you for remembering
and honoring these
amazing folks! We are
so blessed by your
friendship.
